OBJECTIVE

Recently graduated with a Bachelor's degree in Computer Science from the University of Sherbrooke, I bring with me three internship experiences where I held roles as a web developer or software developer. Proficient in over 5 programming languages, with a particular expertise in TypeScript and Java, I am seeking to apply my skills in web development or software development within a dynamic company. I am eager to contribute to innovative and challenging projects, and I am looking for an opportunity to evolve and grow professionally.

SKILLS

- React, Typescript, tailwindCSS
- Java, NodeJS, Golang, C++, Express, Socket io
- PostgreSQL, MongoDB, Redis
- Docker, Digital Ocean
- Gitlab CI/CD, github, Atlassian
- Agile, Jira
- Teamwork
- Fast learner
- Organization
- Communication Skills
- Adaptability
- Autonomy

WORK EXPERIENCE

September 2022 -
December 2022

Front-end development internship

Lime Health

Telework

- Optimize the interface by adding platform features
- Utilized **React** with **TypeScript** for front-end development
- Wrote tests for each new feature added using **React Testing Library**
- Worked in an **agile** environment, participating in scrum meetings and retrospectives
- Performed **GraphQL** queries and mutations to communicate with the server and carry out necessary operations for tasks
- Resolved multiple bugs within the platform
- Conducted operations for cache management using **React Query**

January 2022 - April 2022

Application Development Internship

Metareal

Telework

- Analyzed and found solutions to resolve platform bugs
- Added new features to the platform, particularly using **JavaScript**
- Enhanced my teamwork and problem-solving skills
- Increased proficiency in collaborative work and problem analysis
- Worked closely with colleagues

May. 2021 – August 2021

Telework

IT Project Manager

Kalitec

- Established the application foundation for a new company platform
- Autonomy in choosing the framework and implementing features
- Primarily used **Vue.js** for the application and communicated with an existing **REST** API for various functionalities

BACHELOR'S THESIS PROJECT

January 2023 – April 2023

Agroleaf

Université de Sherbrooke

- Collaborated with the client to clarify all project requirements
- Established the application design using **Figma** and proposed it to the client for validation
- Set up the development environment for the backend using **Docker**, **PostgreSQL**, and **Golang**
- Implemented the frontend for company management and authentication using **React** and **TypeScript**
- Implemented the backend for user and company management
- Conducted weekly meetings with the team and the client to discuss the project's progress

FORMATION

2019 - 2023

Sherbrooke, Québec

Bachelor's Degree in Computer Science

Université de Sherbrooke

2019

Dakar, Sénégal

High School Diploma in S2 series (Equivalent to Pre-University DEC in Science)

Lycée pédagogiques prestiges
